

GENERAL INFORMATION

- 4:1 student to instructor ratio
- Led by PGA TOUR, *Golf Digest 50 Best* and *Golf Magazine Top 100* teachers, and other certified instructors
- Digital video and picture swing analysis (1200 frames per second)
- Personalized catalog of swing pictures with model swing comparisons and instructor notes
- Unlimited use of the practice facility

ACTIVITIES

Students can split their time between each area or customize a program that focuses on their individual needs.

Introduction

Students will be introduced to Stack & Tilt Golf's fundamentals, the basic elements and motion of the swing (explained through pictures, diagrams and graphs), as well as a demonstration of the Stack & Tilt Golf *Grid™*.

Full Swing Analysis

Each student will be filmed and assessed to pinpoint the areas for improvement in their swing. Instructors will provide students with drills and practice routines that will help students address the elements identified by our professional assessment.

Specialty Area: Driver

See how extending, tilting and turning will help you hit it farther, straighter and more consistently in the fairway.

- The driver compared to an iron swing
- Baseline numbers
- Trajectory, clubhead speed, spin and loft
- Driver-specific drills

ONGOING SUPPORT

Student's swings will be filmed throughout the clinic and their progress in each area will be discussed. Instructors will review film, **TrackMan reports** and other data with each student before finalizing the **catalog of pictures** and notes that the student can refer to when they return home and practice on their own.
