- 4) Complete Network Training Evaluation
- 5) Network Instructor Logo issued and listed on website Instructor Locator
- 6) Eligibility for Authorized Training

AUTHORIZED

- 7) Spectrums: Create a portfolio or "Lesson Binder". Submit Before and After picture spectrums successfully implementing the 5 principles (10 words) using the Stack&Tilt® template. Minimum of 5. Fault and Fix, with a why and how for each one. These spectrums would include a [one or more] student[s] of the instructor and would be submitted using the Stack&Tilt® spectrum template. A minimum of 3 and a maximum of 5 pictures would be required each spectrum (with at least 2 pictures of a student).
- 8) Catalogs: 5 Catalogs of poorer players failing at the 10 word using the Stack&Tilt template. Minimum of 8 pictures per principle. 5 Catalogs of expert players demonstrating the 10 word using the Stack&Tilt template. Minimum of 8 pictures per catalog and submitted using the Stack&Tilt® Catalog template.
- 9) Measurable Results – Handicap Tracking/Score Tracking
Submit handicaps or cards of 5 successful students or submit tournament results with a brief explanation of their success. Can be a scorecard demonstrating a student's best round.
- 10) You must be in the program as a Network Instructor for a minimum of 1 year and current on all membership fees.
- 11) Conduct a standard Stack&Tilt Clinic:
This would be learned by watching and observing clinics given by Andy or other Authorized Instructors. This would be submitted by video and can be done in conjunction with another instructor.
Your Standard Clinic would include:
 - 1) Explain the 3 fundamentals
 - 2) Explain & demonstrate the basic template of the swing
Including: Knee flex changing, inward hand path, inclined plane, arc on ground, why & how you need a stable axis, how to trace the arc.
 - 3) Ball Flight Laws: Demonstrate and explain the start line and curve of the ball, explain the changes made to accomplish the different shots.
- 12) Authorized Instructor Logo issued and listed on website Instructor Locator.
